SUMMARY OF THE REASONS FOR DECISION:

The computer image file entitled *yngfacial.jpg* is classified as:
Objectionable.

This classification is because the publication promotes and supports the exploitation of children for sexual purposes.

The computer image file contains an image of a naked child with what appears to be semen on his or her face. The purpose of the publication is to encourage the titillation of people with a sexual interest in children. This presentation advances the idea that children are available for adults' sexual gratification and are ready for adult forms of sexual activity.

The classification of this publication interferes with the freedom of expression, as set out in section 14 of the New Zealand Bill of Rights Act 1990. This outcome is consistent, however, with Parliament's intention that publications falling under section 3(2) of the Films, Videos, and Publications Classification Act 1993 are deemed to be objectionable. The classification is also a reasonable limitation on the freedom of expression that reflects the concern of "a free and democratic society" to limit the availability of publications that promote and support the exploitation of children for sexual purposes.
